

SRICHARAN MAHAVADI

Analytics Engineer | Data Engineering | Snowflake | Databricks

• 6172596784 • smahavadi.official@gmail.com • [LinkedIn](#) • [GitHub](#) • San Francisco, CA

PROFESSIONAL SUMMARY

Analytics Engineer with 4+ years of experience building and productionizing cloud analytics solutions across retail and healthcare domains. Skilled in Snowflake, Databricks, Python, SQL, and Spark with expertise in scalable ELT pipelines, commercial analytics, KPI frameworks, pricing analytics, and enterprise reporting automation. Proven track record delivering production-grade data products processing multi-million record datasets, enabling revenue growth, operational efficiency, and data-driven business decisions across cross-functional business teams. Experienced collaborating with technical and business stakeholders to operationalize analytics workflows and scalable reporting systems in enterprise environments. Experienced working across retail, healthcare, and commercial analytics environments in enterprise-scale organizations.

PROFESSIONAL EXPERIENCE

Albertsons Companies May 2025 - Present

Data Engineer – Merchandising & Marketing Analytics Pleasanton, CA

- Delivered production data pipelines for transactional email monetization tied to a \$9M annual CPG revenue target
- Productionized daily NFPT projection pipelines processing 10M+ transactional records across 12 business divisions
- Operationalized scenario-editing workflows across 20 retail banners, eliminating Excel-based manual planning processes
- Spearheaded pricing elasticity analytics frameworks across 10 product categories to support merchandising and category strategy initiatives
- Built analytics-ready datasets and API-backed reporting workflows improving visibility into commercial performance metrics
- Partnered with merchandising, analytics, and business stakeholders to streamline reporting delivery and analytics operations

H.Y.P.E to Empower Inc. Feb 2025 - May 2025

Business Analyst – Program Analytics Atlanta, GA

- Developed a Python and Streamlit-based grant discovery platform replacing external paid tools and reducing operational costs by \$1,000+ monthly
- Automated grant tracking and workflow management processes using Python and n8n, reducing manual effort by 80%
- Engineered reporting and operational analytics workflows improving funding visibility and program performance tracking
- Built automated dashboards and reporting solutions supporting data-driven operational planning and monitoring initiatives

Novartis Pharmaceuticals Jul 2022 - Aug 2023

Data Engineering & Commercial Analytics Analyst Hyderabad, India

- Architected and productionized end-to-end analytics pipelines using Snowflake, AWS, Python, and Alteryx processing ~2TB of commercial datasets daily
- Orchestrated segmentation and targeting analytics generating territory-level insights supporting commercial field teams and go-to-market execution
- Operationalized incentive compensation analytics improving reporting transparency and accelerating monthly and quarterly reporting cycles
- Automated ingestion and quality validation workflows across 30+ distributors and 27 vendors improving data timeliness and reporting accuracy
- Supported oncology and radioligand therapy commercial analytics initiatives through scalable KPI reporting and dashboard automation
- Collaborated cross-functionally with business and analytics teams to streamline enterprise reporting and commercial analytics operations

Data Strategy Analyst – Healthcare Analytics

Bengaluru, India

- Analyzed treatment-switching behavior across 500K+ patient records supporting commercial strategy initiatives for Fortune 500 pharmaceutical clients
- Engineered pharmacy tracking workflows enabling territory-level prescription trend analysis and faster field strategy adjustments
- Built and automated 40+ Power BI and Tableau dashboards reducing reporting turnaround time from one week to 24 hours
- Optimized campaign performance analytics across 14 territories using claims and sales datasets to improve KPI alignment for stakeholders
- Automated validation and reporting workflows improving analytical consistency and operational efficiency across reporting environments
- Delivered commercial insights supporting sales, marketing, and field operations teams across multiple healthcare analytics initiatives

PROJECTS**Grant Analytics & Workflow Automation Platform****Python | Streamlit | Workflow Automation**

- Developed an automated grant discovery and tracking solution supporting funding analytics and workflow management initiatives
- Built operational dashboards and automated reporting workflows improving program visibility and reducing manual operational effort

Pricing & Elasticity Analytics Framework**Python | SQL | Commercial Analytics**

- Developed pricing and elasticity analytics frameworks supporting merchandising and category performance analysis
- Enabled KPI-driven pricing strategy decisions through demand sensitivity analysis and commercial reporting workflows

TECHNICAL SKILLS

- **AI & Automation:** LangChain | CrewAI | RAG Pipelines
- **Cloud & Data Platforms:** Snowflake | Databricks | AWS | GCP | Azure
- **Languages & Analytics:** Python | SQL | Spark | scikit-learn | XGBoost | A/B Testing
- **Development & Tools:** Git | Docker | Flask | FastAPI | CI/CD | JIRA | Agile/Scrum | Alteryx
- **Analytics & BI:** Power BI | Tableau | Superset | KPI Reporting | Commercial Analytics | Dashboard Development
- **Data Engineering :** ELT Pipelines | Kafka | Prefect | API Integration | Data Modeling | Workflow Automation | Data Quality

EDUCATION

- **Master of Science (M.S.) – Business Analytics** | Boston University – Questrom School of Business | Boston, MA
- **Bachelor of Technology (B.Tech) – Engineering** | National Institute of Technology | India

CERTIFICATIONS

- Building Retrieval Agents on Databricks
- Machine Learning Model Deployment
- SQL Analytics on Databricks
- Generative AI Application Evaluation and Governance

ADDITIONAL INFORMATION

- **Work Authorization:** Eligible to work in the United States
- **Domains:** Healthcare Analytics | Retail Analytics | Commercial Analytics
